XENON 1

The brand-new Xenon 1 guarantees a safe and smooth journey for children from birth up to 7 years old. Its full 360-degree rotation allows effortless entry and exit, making everyday use a breeze.

Featuring a thoughtfully designed ergonomic structure, a soft and cozy newborn insert, effective ventilation, and an extra spacious seating area, the Xenon 1 delivers both comfort and functionality.

Designed in Germany, it combines the highest safety standards with a sleek, modern aesthetic.

PROTECTING OUR FUTURE.

FEATURES

RECARO

1 MODULAR NEWBORN INSERT (SLOW-REBOUND MEMORY FOAM)

The soft silky premium-feel insert with shock-absorbing foam provides extra protection for newborns. It facilitates the proper ergonomic positioning of your infant, which balances superior safety and comfort.

2 REARWARD & FORWARD-FACING

Rearward-facing:

The seat offers a 165° maximum recline angle.

Forward-facing:

The seat reclines up to 135°.

3 TRAPEZOIDAL SIDE IMPACT PROTECTION

With its innovative trapezoid-shaped design, the built-in cellular structure promptly and effectively absorbs impact forces, significantly reducing the risk of injury in side-impact collisions. The trapezoidal silver frame adds a sleek, harmonious touch to the overall design.

4 COMFORT VENTILATION

Multiple ventilation openings in the seat shell ensure your child enjoys a comfortable journey, while breathable, skin-friendly fabrics provide enhanced comfort, even on hot summer days.

5 SAFETY LOCK

Rearward-facing travel is mandatory for at least 15 months. When the safety lock is turned on, the seat can not be rotated forward-facing. The safety lock serves as a guide to help parents use the XENON 1 correctly.

6 INSTALLATION – ISOFIX CONNECTORS & SUPPORT LEG

A highly convenient way to confirm that the seat is properly installed is through our easy-to-read indicators. Simply connect the ISOFIX connectors to the car seat, then extend the support leg towards the floor. Once the indicators turn green, it confirms that the seat is securely and successfully engaged, ensuring peace of mind for the user.
